- Inregistrarea si monitorizarea tuturor anvelopelor din flota
- Control regulat adancimi profil si presiuni
- Reduceti consumul de carburant
- Evitati schimbul neautorizat al anvelopelor
- Prelungirea duratei de utilizare a anvelopelor
- Economisiti sume importante anual

The image displays three screenshots of the Anvelopeweb.ro software interface, illustrating its capabilities in fleet management and tire maintenance.

Left Screenshot: Profile and Dimensions
This screen shows the 'Profile Bridgestone' and 'Dimensiuni R249 ECOPIA' for a specific vehicle. It includes a table with columns for 'Cod', 'SKU', 'Dimensiune', 'Sarc.', 'VLS', 'mm', and 'Pnax'. The table lists various tire models and their specifications.

Cod	SKU	Dimensiune	Sarc.	VLS	mm	Pnax
0227	295/60 R22.5	350/147	L	13	9	
0249	295/60 R22.5	352/148	B	14	8.5	
R249 ECOPIA	315/70 R22.5	352/148	L	14	9	
0287	315/70 R22.5	354/130	L	14	8.5	
0287	315/70 R22.5	352/148	R	14	8.5	
0287 EVO	315/80 R22.5	354/130	R	null	null	
	385/65 R22.5	160	R	13	9	

Middle Screenshot: Dimensional Standard and Allocation
This screen displays 'Dimensiuni standard pe axe' (Standard dimensions per axle) and 'Alocare anvelope' (Tire allocation). It shows a diagram of a vehicle with axles labeled D1, D2, T1, and T2. Below the diagram, there are sections for 'Axe tractiune' (Drive axles) and 'Axe remorca' (Trailer axles), each with a table of axle numbers and their corresponding tire specifications.

Right Screenshot: Inspection Log
This screen shows a detailed log of tire inspections. It includes columns for 'Data' (Date), 'Tip op.' (Type of operation), 'Status', and 'User'. The log lists various inspection events, such as 'Alocare' (Allocation) and 'Inspectie' (Inspection), with specific dates and user names.
